# 'After addressing MFI pain points, profitability to improve in H2'

POSITIVE OUTLOOK. Deposit to continue growing faster than credit: IDFC First Bank MD

Piyush Shukla

After having made higher provisions to cover for potential losses from micro loans and an infrastructure account, IDFC First Bank's profitability will sharply improve from H2FY25, MD & CEO V Vaidyanathan told businessline in an interaction. Excerpts:

### What went wrong with the MFI book?

The MFI segment, for whole industry, has shown delinquency. However, if you see the CRIF Bureau report, in each of the top 5 States, Tamil Nadu, Karnataka, Maharashtra and Bihar, except Kerala, our 30 DPD (dayspast-due) is less than the industry. Even the Crisil report puts our collection percentage marginally higher by 0.7 per cent than the rest of industry.

So, our underwriting has been sound. We will watch for a couple of quarters and see how the portfolio behaves, how collections are, then decide how much to

## toll account, is there more stress remaining in legacy IDFC book?

It has been back breaking work for our bank to unwind ₹22,000 crore of infrastructure loans, declaring them defaulters, requesting, facing pressures, taking them to court, facing threats, fighting cases and so on. Now its only ₹2,000 crore, 1 per cent of the book.

The company operating the toll station had taken ₹1,100 crore loan. We collected  $\stackrel{\scriptstyle <}{\scriptstyle <} 600$  crore. We provided ₹240 crore earlier and were left with a balance of ₹250 crore. Then the news about stopping toll collection was a force majeure event. That balance got stuck. To not account for such a serious incident does not sit well with our governance practices.

Our unsecured retail loan book, where end use is not defined is 15 per cent of the loan book, includes credit cards, personal loans, digital personal loans, etc. Its gross NPA, including CD, education loan, is 2.1 per cent and NNPA is 0.6 per cent. SMA is also low. We advise our underwriters to not relax credit criteria.

### What are the core business targets for

your bank in H2FY25? Our deposits are growing by 32 per cent, loans by 21 per cent. So, in H2FY25, our focus will be to continue to offer high level of customer experience, increase operating profit by better operating leverage.

We expect net profit number for the bank in Q3 to look much better, and Q4 to be better than Q3. We believe the bottom of net profit has been set and from here on it should increase.

# City Union Bank to launch several retail products in Q4, eyes growth in FY26

G Balachandar

City Union Bank is preparing for a commercial soft launch of its new retail products, including housing loans and micro-LAP (loan against property), in Q4 of the current fiscal year, with incremental growth expected from these new offerings in the next fiscal.

The bank will focus on secured products under this portfolio, while also planning to revamp its core gold loan product by transitioning from floating to fixed interest rates.

After multiple quarters of negative operating profit

N Kamakodi, MD and CEO. City Union Bank

growth, the bank reported strong year-on-year growth in the September quarter.

STRONG GROWTH

"We've seen significant improvements in

sourcing efficiency, and our digital transformation has driven solid credit growth," N Kamakodi, MD & CEO, CUB said during its Q2FY25 earnings call.

He also stated that the current growth has been driven primarily by traditional business lines, including MSME and gold loans, while the incremental growth from retail is yet to begin. He further explained that the bank is in the process of building its new retail vertical, with technology ready and senior management in place. "The commercial soft launch of the new products is expected in the last quarter of this fiscal year, starting with secured products. Significant contributions from these new products should begin by FY26," Kamakodi said.

The bank aims to attract new-to-bank customers for its retail products. In southern India, branches and field staff will handle sourcing, while in northern and western regions, third-party channels and direct selling agents (DSAs) will be utilised. In-house sourcing will come with minimal costs, while third-party sourcing will involve some operational expenditure.

"With around branches in the South, we expect a strong retail business from internal sourcing," Kamakodi added.
